Student Spotlight

Our first Student Spotlight is Miss Demie!

Miss Demie joined our dance family in the fall of 2018.

We have loved getting to know this little dancer and her family!

Read Miss Demie's story below:

"Demie was born with hip dysplasia and has had several corrective surgeries on her left hip," Demie's mom says. "Even being in a cast from her chest to her feet, Demie always danced the best way she possibly could. So the very minute we were given the clear to join dance class, we called High Image and enrolled."

"Demie loves walking into class every week from being greeted by Miss Hannah at the front desk to walking back to class with Miss Hillary. High Image is so much more than JUST dance class, it's a little family where lifelong friends are made, and that is what we love about it. Demie has not only strengthened her hip through dance, but has become so much more confident since she started. She has even been given the ALL CLEAR from her orthopedist to not come back for 3 YEARS! We love High Image and are so thankful to be a part of it!"

We have loved getting to know Miss Demie and her family, and we are so happy that she has found a love for the art of dance at our studio! Congratulations, Miss Demie, for being our September Student Spotlight!
